

Announcing the new 2401LM 24-inch Healthcare Grade Desktop Monitor

Product Overview

We are pleased to announce the new healthcare grade 2401LM desktop monitor. The fully featured 2401LM touch monitor offers surface acoustic wave touchscreen technology which provides stable "drift-free" touch response, outstanding image clarity and resolution, resulting in an accurate touch experience and vivid images. Additionally, the touch monitor is equipped with industry standard connectivity in the form of a USB and RS232 combination touch controller, DVI-D, VGA connectors and built-in audio amp and speakers. The 2401LM is available in white and black color.

The 2401LM is compliant with multiple safety and electrical certification standards, including EN 60950-1 and EN 60601-1 for safety and EN 60950-1, EN55022, EN55024, and EN 60601-1 (3rd Edition) for EMC. Equipped with an LED backlit state-of-the-art LCD panel, the monitor is environmentally friendly with reduced power consumption. The Elo 2401LM touch monitor is an effective solution for nurse stations, computer-aided therapy, electronic medical record keeping, paperless charting, patient self-check-in, as well as non-medical applications that benefit from a large desktop display with DVI-D input, speakers and a pristine full HD image display.

Having been "designed for touch" from the drawing board up, the 2401LM features a stable stand with tilting functionality and removable for VESA mount, cable management and cable fastening features to prevent accidental disconnection, OSD controls with lockout capability and a IPx1 drip-resistant housing.

2401LM Features

- 24" diagonal 16:9 active matrix TFT LED-backlit LCD
- Active Display Area: Horizontal: 20.9" (531.36mm) Vertical: 11.7" (298.89mm)
