

Medical grade touch monitors: 1528L (15”) and 1928L (19”) are still in supply. However the 1528L model will soon be replaced by 1519LM (wide aspect ratio).

**Some jargons about ELO's touch technologies:**

- Accutouch = Resistive now offers without bezel.
- Intellitouch = Surface wave.
- iTouch = Intellitouch without bezel.
- iTouch Plus = Surface wave with dual points touch without bezel.
- Intellitouch Plus = Surface wave with dual points touch with bezel.
- PCAP = Projected Capacitive, dual touch without bezel.

Compared with the above model, this model comes with more peripherals, not only MSR, RFID or additional second display or web camera. It accompanies with only iTouch Plus (dual points touch with fingers and flush surface) and with DVI input.

To help save the trouble of comparing the monitors, here is a quick check table for desk top models:

	No Bezel Monitor		
	Wide aspect	Standard aspect	
	Color: Black	Color: Black or White	
Touch Technology:	1519L 1919L	1517L 1717L	1523L 1723L
AccuTouch	✓	✓	
iTouch	✓	✓	
PCAP	✓		
iTouch Plus			✓
	VGA		VGA & DVI

For users that have been using our 1729L model, the new 1723L will be able to fulfill the DVI input request.

22" Touch monitor	Wide aspect	
	Color: Black	
Touch Technology:	2201L	
iTouch	✓	No Bezel
PCAP	✓	
IntelliTouch Plus	✓	Have bezel
	VGA & DVI
