

Dear All,

ELO I-Series for Windows Interactive Signage:

The Elo I-Series for Windows AiO interactive signage delivers commercial-grade computing with the capabilities, security and enterprise infrastructure of a powerful Windows-based platform with a sleek, ultra-thin, yet ruggedized form factor down to 1.5 inches thin. The I-Series AiO provides an integrated platform for immersive interactive applications in all commercial markets including retail, hospitality, gaming, corporate and medical - backed by a three-year warranty extendable to five years.

Available in two wide format display sizes - 15.6" and 21.5", both I-Series for Windows AiO touchscreens feature our industry-leading TouchPro™ PCAP technology that provide a10-touch tablet-like interactive experience. With edge-to-edge glass, it is easy to clean with no edges to trap dirt and grease, the I-Series can be flexibly mounted anywhere in portrait, landscape or table-top orientation using Elo wall, floor and tabletop mounting accessories making application use endless.

The touchscreen computer offers the processing power needed for seamless engagement in any environment with the latest Intel processors. The 6th generation Intel Skylake i5 with HD530 graphics for top end performance or the fanless Braswell Celeron ideal for ultra-low noise environments. Both models are available pre-installed with Windows® 10, Windows 7 or No OS configurations (Windows 8.1 is available upon request).

The I-Series for Windows delivers the optimal interactive platform with integrated Wi-Fi, Bluetooth and an embedded web cam along with the existing I-Series interactive peripherals (NFC reader, barcode reader, MSR) and mounting options (poles, shelf & floor stands, shelf & wall mounts). With up to four USB ports and GPIO as well as a USB Expansion Hub option that provides connectivity for distributed POS applications, the AiO I-Series is ideal for almost any commercial use. Designed for ease of field upgrades with systems components and ease of serviceability, the Windows I-Series brings reliability and performance with the latest developments in touchscreen technology.

ELO I-Series for Windows Interactive Signage:

Features:

- Available in 15.6" and 21.5" sizes with high-performance computing and graphics, integrated display, and Elo's TouchPro® PCAP (10 Touch) technology.
- Professional-grade, all-in-one interactive digital signage designed for the rigors of public use.
- Modern design with flexible mounting in portrait, landscape and table-top orientation.
- Sleek, ultra-thin design with ruggedized form factor down to 1.5 inches thin.
- Universal snap-in peripherals (NFC/RFID reader, barcode reader, MSR) and mounting options (poles, shelf & floor stands, shelf & wall mounts).
- Thin, commercial-grade touchscreen ideal for commercial use: retail, hospitality, gaming, medical, and other office applications.
- 22-inch I-Series meets EN62262 IK06 & UL60950 ball drop impact protection.
- Worldwide agency approvals and a 3-years' standard warranty.

ELO X-Series Touchcomputer: All-in-One Desktop Touchcomputer:

The Elo X-Series 15-inch, 17-inch, and 20-inch All-in-One (AiO) touchcomputers bring style, flexibility and functionality to point-of-sale (POS), point-of-information (POI) and point-of-service applications within retail and hospitality environments. Configuration customization, serviceability and performance combine to deliver touchcomputing that adapts to your existing hardware, software and connectivity requirements.

The X-Series AiO touchcomputers are available with industry-leading touchscreen technologies from Elo including AccuTouch® micro-bezel 5-wire resistive, IntelliTouch® surface acoustic wave, IntelliTouch zero-bezel surface acoustic wave (SAW) and IntelliTouch Pro Projected Capacitive (PCAP). The Elo X-Series 20-inch touchcomputer is only available with IntelliTouch Pro Projected Capacitive (PCAP) touch.

The fan-less models utilize the Intel® Celeron Quad-Core processor for environments where noise may be an issue. For higher performance, the fan-cooled models feature 4th Generation Intel Core i3, i5 and i7 processors and HD2500 graphics.
